Sector 8A, Raipur (CG) - 492001

Your Branch of Depression(Engineering)-

B.Tech Computer Science and Engineering with
specialization in Software Engineering

What did you do except binge watching in the past 2 years? (Achievements)-

I was in the Organizing Committees of various student-run events in my school heading the IT team in some of them. I also helped create a website for my school's MUN which is now offline as it had to be updated for this year's edition.

Also talking about last year, I was appointed as the student head of Computer Science in my school.

I did an offline internship in 2019 in a company in Mumbai owned by an alumni of my school. I was working with the R&D team to create a device to record data for transformers and predict the future data in order to prevent power failures.

I also participated in Gurugram Police Cyber Security Summer Internship 2020 by Mr. Rakshit Tandon.

How do you waste your time(Hobbie(s))-

I like to spend most of my time learning from free resources like freeCodeCamp leveling up my skills. Other than this I also like to play badminton.

Any S(kills)-

I know how to code in Java, Python and Javascript (Java and JS being the ones I surprisingly am more comfortable with). I also can code Discord Bots in js.
